There's a new kind of luggage—the shell of the steamer. How Wheary knows to build like a plane—light, yet strong and doubly waterproof, luggage that won't rust or stretch when you fly and promise of steel strength steams. And it couldn't be so fantastically correct outside if it weren't built around expert packing of your necessities.

Wheary's bags steamed long, endured, because they came straight from assembly and were deflated in packing bills. You can start with one Wheary case and add a piece to another next, you have a complete steamed set.

Wheary's bags are made of the finest materials and are built to last. They are the only luggage that will stand up to the most severe tests.

Cozy New Pajamas
that Banish Frosty Toes

Designed originally for men and favored in England, Suspenders have had an amazing reception. Orders have poured in from all over the country—from Canada—South America—even London. • Men's style women discovered them—asked about them, admired, sported our look—and bought most of our small men's sizes. • So we've had Suspenders made in really fit women—and we think they'll love them. • The tops are striped and the slacks are in solid colors. Both tops and slacks are made of fine gauge knitted-weight knit jersey. • They're ultra comfortable—delightful to sleep and lounge in. And you can see how they look in the picture at the left. • They were our idea, and nobody else has them.
